

PATENT APPLICATION
Docket No. 43967-00025D1

REMARKS

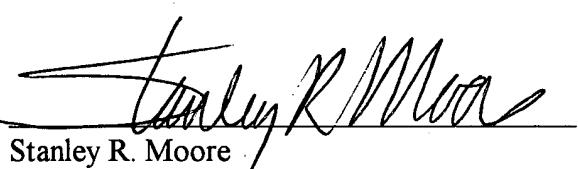

Pending claim 1 of the parent application has been canceled. New claims 2-14 have been added. Thus, claims 2-14 are currently pending in this application.

This application is a divisional of U.S. Patent Application No. 10/192,002 ("the '002 application"), filed July 8, 2002, now allowed. The '002 application was subject to a restriction requirement in which Applicant elected to prosecute claims 1-7 and cancel claims 8-20. New claims 2-14 of the present application are substantial duplicates of claims 8-20 canceled from the '002 application due to the restriction requirement.

In view of the above, a thorough and complete examination of this application over all art of record in the aforementioned applications, as well as any other art, is requested.

Respectfully submitted,

By:
